

Special notice for The University of Tokyo (Engineering)

The master's program in Department of Urban Engineering is not a taught course, but **a research-based course**, which puts more focus on in-depth research and writing. Therefore, before applying, you need to 1) identify the most suitable supervisor who can guide your research and 2) contact and consult with him/her to write a research plan (Prescribed Form 3B). Please refer to the list of faculties in the application guidelines. To obtain supervisor's email address, please contact the JDS Project Office (india.jds@jds21.com) .
